Having more than 2 years of work experience in Ruby on Rails web applications. Exposure to Business Development in start-ups. Completed Masters degree in Computer and Information Science, SUNYIT-NY.

Technical Skills

Programming languages:	Ruby, Java, C, C#
Scripting languages:	jQuery, JavaScript (AJAX), PHP, ASP.NET
Technologies:	Ruby on Rails, GitHub, .NET, HTML, CSS
Operating system:	Ubuntu 10.04/12.04, Windows 9x/XP/Vista
Database:	MySQL, PostgreSQL, MSSQL
Modelling:	UML, ER diagrams, Flow Charts, Data Flow Diagrams
Other:	Twitter Bootstrap, Blueprint

Core Performance Area

• Involved in complete process of **SDLC -** analysis, design, development, implementation, maintenance & enhancement of applications.

• Proficient in **object-oriented programming**.

• Experience in using design patterns, and in developing **UML diagrams** including **Use-Case diagrams**, **Class diagrams**.

• Ability to work in a team and independently, ability to meet deadlines.

• Flexible, result-oriented and adapt to the environment quickly to meet the goals of the product and the organization.

• Dedicated to maintain high quality standard deliverables; writing clean and managed code; documenting, reporting and testing self written and cross developer code.

• Posses good work ethic and high-level of integrity, strong team spirit and skilled involving, managing and motivating others team objectives.

• Passion for new technologies and a quick learner.

Career Path	Designation	Year
• YourNextLeap.com	Software Engineer	Oct 2012 - Present
• LetsAlign Technologies Pvt. Ltd.	Founder member and Technology Head	Apr 2011 – Sep 2012
• QUADSIMIA LLC, NY, US	Web Developer	Mar 2010 – Dec 2010
• SUNY Institute of Technology, NY, US	Student Assistant to Dean	Apr 2009 – Dec 2009

Academic Projects Undertaken		
• BizNet – Business through Social Networking	SUNYIT, NY, US	Aug 2009 – May 2010
• Multicast Group Monitoring	HEWLETT - PACKARD	Feb 2006 – May 2006
• FTP-Telnet Monitoring		Aug 2005 – Dec 2005
• Shipyard Management		Mar 2004 – Jun 2004

- Graphics Editor   Aug 2005 – Dec 2005

Academic Credentials

Master of Science in Computer & Information Science (GPA – 3.07/4)   **May 2010**
State University of New York Institute of Technology (SUNYIT), Utica, NY

Bachelor of Engineering in Computer Science & Engineering (59.73%)   **Jul 2006**
M S Ramaiah Institute of Technology

Diploma in Computer Science & Engineering (55.22%)   **Jul 2001**
Shreeram Polytechnique, Airoli, India

SSC (76.80%)   **May 1998**
Manisha Vidyalaya

Relevant Work Experience

YourNextLeap.com   **Software Engineer**   **Oct 2012 - Present**
Jombay.com is next generation job site changing the way hiring is done in India. The recommendation engine helps to get more relevant result for job seekers and recruiters both.

Key Performance Areas
- Wire backend code with dynamic frontend.
- Build backend (in RoR 3.2.9 and Mongoid) and frontend (jQuery, HAML, HTML) for Questionnaire feature
- Frontend code optimization

Technologies Used
Ruby-on-Rails 3.0/3.2, jQuery, HAML, CSS, Ubuntu 12.04, Github, Twitter Bootstrap, Mongoid

LetsAlign Technologies Pvt. Ltd.   **Founder member and Technology Head**   **Apr 2011 – Sep 2012**
LetsAlign is IIM Ahmedabad incubated startup company founded in late 2010. Its domain is Internet Technology and works in social web and mobile application development. Recently it has launched a project, Votodo (http://www.votodo.com/). Votodo is an action network. It helps you to share, discover and do things you want to do with like-minded people.

Key Performance Areas
- Manage a team of two developers/employees.
- Design and develop front end of social web application.
- Implement workflow and business logic in Ruby-on-Rails.
- Code and performance optimization.
- Mobile application development and interface design.
- Testing.

Technologies Used
Ruby-on-Rails 3.0/3.2, jQuery, jQuery UI, CSS, Blueprint CSS, Ubuntu 10.04, Github, Twitter Bootstrap

Achievements

ROR Developer

This project was selected for and team participated in "iAccelerator" program at IIM-Ahmedabad

Quadsimia LLC   **Web Developer**   **Mar 2010 – Dec 2010**

Quadsimia is Internet service provider company based in Utica, New York. Quadsimia has its own Software Products and also offers Custom Software Development for businesses wanting to have successful presence over internet.

Key Performance Area

- Worked on PHP scripts and MySQL database to add module in qDynamo Content Management System.
- Worked on PHP API scripts and MySQL database to transfer blog.
- Wrote CSS and dealt with cross browser compatibility issues.
- Optimized performance of web pages.
- Wrote PHP scripts and MYSQL queries in web forms to access database for different database operations.
- Tested sites for inconsistency.

Technologies Used

PHP, MySQL, JavaScript, jQuery, CSS, HTML, Eclipse Galileo, Firebug, Page Speed, YSlow, Adobe Photoshop CS3, WinSCP, SSH

SUNY Institute of Technology, NY, US   **Student Assistant to Dean**   **Apr 2009 – Dec 2009**

State University of New York Institute of Technology is an institute established under SUNY board of trustees. It offers programs to pursue undergraduate and graduate degrees in field of technology and management.

Key Performance Area

- As a Student Assistant to Dean of Institute : Developed web application using PHP and MySQL.
- As a Student Assistant to Library Systems Manager : Managed software updates, enforced computer lab policies, managed inventory, implemented/provided remote assistance services and provided hardware/software assistance to lab users.

Technologies Used

PHP, MySQL, JavaScript, HTML, Adobe Dreamweaver

Academic Projects Details

BizNet – Business through Social Networking   **Aug 2009 – May 2010**

- Developed a business-oriented social networking website application using C# ASP.NET.
- Developed database in MSSQL 2008.
- Developed user interface using ASP.NET controls and business logic was written using C#.NET.
- Performed form-based authentication and role based security.
- Developed custom user controls to reduce redundant code.
- Used Validation Controls for validating the email address and required fields.
- Wrote SQL queries to manage database and access ADO.NET objects for view and retrieval of data as required and database updates.

ROR Developer

- Analyzed the class and use case diagrams.

Technologies Used

C#, ASP.NET 3.5, MSSQL server 2008, .NET Framework, ADO.NET

Multicast Group Monitoring (Organization: HEWLETT – PACKARD)   Feb 2006 – May 2006

Developed a monitoring system for multicast group on the network to assist the administrator in observing network activities including alerts if errors occurred.

FTP-Telnet Monitoring   Aug 2005 – Dec 2005

A simple network monitoring tool assisted in monitoring FTP/Telnet traffic through the network (i.e. checking the functions such as file transfer and remote login).

Shipyard Management   Mar 2004 – Jun 2004

Developed a database application for making inventories and billing for shipping company. The database was developed using Oracle as back-end and Visual Basic as front-end.

Graphics Editor   Aug 2005 – Dec 2005

Developed an application using C language to display or create graphics primitives (i.e. rectangle, line).

Training Programs

Receiving training for Microsoft certification in C#, ASP.NET, ADO.NET, WCF, WPF

Extra Curricular Activities

- SUNYIT Cricket Club Secretary, Aug. 2007 – Aug. 2009
- SUNYIT International Students Association, Advisor/Member, Aug. 2007 – Dec. 2009

Personal Details

DOB: 10th April 1983
